Senior Fullstack Developer

Fullstack developer with 7+ years of experience in building high-load Web3 systems. Specializes in Node.js architecture, blockchain integrations (TON/EVM), and performance optimization. Developed a platform for 2,000+ AI games (500 RPS) and a crypto wallet for 6M+ users. Proven ability to solve complex technical challenges and lead teams.

Work Experience

[SODA](#) - *Tech Lead Backend*

December 2023 – Present

AI-powered game generation platform (Nest.js, PostgreSQL, Redis)

- Architected microservices handling 2,000+ concurrent games at 500+ RPS.
- Engineered an AI code-generation pipeline (OpenAI) that saved 300+ engineering hours.
- Optimized high-volume data storage for 100M+ records using TimescaleDB.
- Implemented custom metric-based autoscaling in Kubernetes.
